

## Penn-Tammany Greenway Coalition

June 11 · 🌐

The Bucks County Planning Commission has asked us to pass along a message to all those interested in the trail.

The Bucks County Planning Commission is requesting that everyone refrain from using the trail during the construction process. Construction will begin earnestly in July and because of the narrowness of the corridor there will be safety hazards. No trespassing signs will be posted. Please adhere to this caution for your safety and that of the workers. We will all be able to enjoy the trail in the near future!
