

## What's new at the Communications Center!

- The EMS Chiefs association voted to have EMS units checked on after 15 minutes of going on scene.

## Refreshers:

- When completing shifts change on the MDT, remember to **"Sign-Off Unit"** before you sign back on and then add the new Personnel!

- While we wait on change request, for the new CAD. It is strongly recommended that after logging on you do a unit roster and check the highlighted fields for accuracy. If you notice an error and do not know how to correct it, contact your friendly neighborhood dispatcher. see below.
